If you faced obstacles with the NWACC application/admissions process, what could we have done to simplify the process?

- “I studied in English and had to take the TOEFL and when I got to NWACC I still had to do the English placement test. This is an obstacle faced by many of us. If we would take the English placement test, then the TOEFL scores limit should be brought down because it has blocked a lot of students trying”

- “The obstacles are most of them in our country”

- “I want to suggest that the pre-nursing students should be informed a little bit earlier so that they know what they have to do”

- “Send a copy to confirm the information”
