This 40-hour didactic education course is designed to provide RNs, APNs and MDs with basic education in providing medical forensic care to adult/adolescent patients of sexual assault/abuse. This course follows the guidelines established by the International Association of Forensic Nurses, and will present various hands-on educational opportunities as well as skill stations.

Upon completion of this course, the participant will earn credit for 40 CNE contact hours. No partial credit will be given.

Note: *Completion of the didactic course does not qualify a RN to practice as a SANE. In addition to the didactic portion, clinical requirements must be completed in the participant's community. Additional information will be provided during the course.*
