NWACC	General Geology Hybrid (D	r. Wendi J. W. Williams)		Name:		-
<u>Assignm</u>	nent: Resources and Resear	ch Skills-Building				
Part 1.	Library Resources Session	Librarian's Name:				
	Library In-Person Access Ho	ours? (Online is 24/7)				
	Notes: (Take sufficient notes to	demonstrate your participation	and understanding of	your training today ir	n class.)	

Assignment: Resources and Research Your Name: _____ Page ___ of _4_

Part 2. Using NWACC Library Resources to Find Answers

Continuing as before, your answers for this part should be in your own handwriting. When you have completed your
work, scan or take a legible digital picture of your work and submit the entire assignment through the Blackboard link
before deadline. Do not word-process. I am specifically asking you to do this in a particular format as practice for lab
module submission

You should take advantage of having some time now during our class session after Part 1 presentation to complete a number of the following items. Otherwise, you are to finish this work on your own time using this library by the deadline in one week.

ne in	one week.
(a)	What online database would be useful to find information about specific topics covered in mainstream print newspapers or periodicals? Why? (Describe NWACC subscription database/s.)
(b)	Using the database/s NWACC subscribes to find an article about the NASA Mars Rover Curiosity (landed August 2012) and also about Honshu, Japan earthquakes and tsunamisNOT articles published in Arkansas. Provide the database used, article date, article title, and author's name/s. Provide a sentence or two quote directly from the articles
	Mars Rover Curiosity:
	Honshu, Japan Geohazardous Events:
•	

(c) How do you access the Library databases if using a campus computer (on or off campus)?

Assignment: Resources and Research Your Name: _____ Page ___ of _4_

(d)	What is the call number for a book called "Field Guide to Geology" written by David Lambert?
(e)	What is/are the call number/s for DVD copies to loan for the Earth Revealed series?
(f)	Where do you go to check out the Earth Revealed series (specific desk areaplease don't just answer "the library.")?
(g)	What media format is the work "Faces of Earth" at our library? Call number?
(h)	You can "Ask a Librarian" online. What are three questions that the online form asks you?
	i.
	ii.
	iii.
(i)	Using the database "ArtStor"search items that make you think of geology. Ask Dr. Williams for some possible works that are found at the new Crystal Bridges Museummaybe you can also find them in this database
