

ID	Hazard	Potential Magnitude	Frequency	Season Pattern	Affected Areas	Duration	Speed of Onset	Warning System	Vulnerability Analysis
1	Natural Flood	limited	possible	spring/none	low lying areas	min/hours	12-24 hours	local media	no
2	Water Line Break	limited	possible	none	any facility	min/ hours	no warning	none	no
3	Infectious Disease Outbreak	limited/critical	possible	winter/none	campus wide/ satellite centers	hrs to days	no warning	CDC/media/Cty Health Dept.	no
4	Severe Winter Weather	catastrophic	possible	winter	Commuters/ Employees	hours/days	1-3 days	media/NWS	no
5	Tornado /Severe Wind	catastrophic	possible	Spring and fall	campus wide /computer centers	minutes	minimal	weather sirens/ monitoring NWS/ WENS	no
6	Fire	limited	possible	none	Property/lives/fiscal	min/hrs	no warning	Building Alarms/ horns/whistles	no
7	Solvent/Chemical Building Fire or Explosion	limited	possible	none	Chemistry labs/ physical plant/ photo labs	1 to 2 days	minimal	none	no
8	Hazardous Materials Spill	negligible	unlikely	anytime	campus wide/individuals/satellite centers	min/hrs	no warning	none	no
9	Riots	limited/critical	possible	event driven; e.g. elections, military conflicts, student issues	admin bldgs, assembly area, student centers	day/week	12/24 hrs	word of mouth	no
10	Armed individual - shooter	limited	possible	none	academic buildings/ administrative/ anywhere/satellite centers	minutes to hours	no warning	none	no
11	Hostage	limited	possible	none	academic bldg/administrative/ anywhere/satellite centers	hrs/day	no warning	none	no
12	Classroom/office violence	negligible	possible	none	classroom/office and adjacent area/ anywhere/satellite centers	minutes to hours	no warning	none	no
13	Criminal Activity	limited	possible	none	student center, parking lots	minutes or hours	no warning	some public safety personnel/ cameras/	yes/no
14	Office or Classroom Medical Emergency	negligible	possible	none	any location	minutes to hours	no warning	none	no
15	Power Outage	catastrophic	likely	none	campus wide/ satellite centers	hrs to days	minimal	short term UPS on critical systems/ generators for major buildings	no
16	Wiring Closet Inoperable	critical	likely	none	any building area- telephony and computer networks	1 to 2 days	no warning	software warning systems during regular hours- no other warning	no
17	Inter-building wiring failure	critical	likely	none	buildings served by underground cables- computer and telephony networks	4 hours to several days	no warning	software warning systems during regular hours- no other warning	no
18	BH Server Room Inoperable	catastrophic	likely	none	entire college including satellite centers- computer and telephony networks	4 to 10 weeks possible	no warning	software warning systems during regular hours- no other warning	no

19	Network Disruption- Cyber Attack	critical	possible	none	college wide technologies	hours to several days	no warning	software warning systems during regular hours- no other warning	no
20	Loss of Key Personnel	critical	possible	anytime	all university areas/ computer support	hours to months	minimal to > 24 hrs	none	no
21	Food-borne illness/cafeteria	critical	possible	academic year	employees and students at main campus	illness dependent	minimal	food service protocol	no
22	IED (Improvised Explosive Devices)	catastrophic	possible	anytime	small to wide area, bldgs/ individuals	min to hours	minimal	none	no
23	Bioterrorism	catastrophic	unlikely	anytime	college wide or limited areas	hrs/ months	no warning	law enforcement	no
24	Chemical Weapons	catastrophic	unlikely	anytime	college wide or limited areas	hrs/months	no warning	none
