

STANDARD COURSE OUTLINE

HIM 2532 Clinical Internship II

COURSE DESCRIPTION:

The student will be given the opportunity to compare the educational experience of previous advanced courses with onsite and on-campus laboratory learning experience.

Affiliation may be in local hospitals, long-term care, home health, state or federal agencies, clinic or community health agencies, or companies providing services. Full-time participation of the student is required.

CREDIT HOURS 2 credit hour

The student will need to obtain transfer information from the institution he/she is transferring to in order to determine transferability.

COURSE LEARNING OUTCOMES:

Upon successful completion of this course, the student will be able to:

1. Apply knowledge and technical skills in the performance of clinical internship activities related to health information management in acute care facilities and alternative health care settings.
2. Apply skills related to health information management roles in other disciplines, such as, quality improvement, performance improvement, medical staff credentialing, utilization review, risk management, and physician clinics.
3. Expose students to emerging technology, regulations, and advances in the health information management profession.
