A-F

Learning Outcomes

- Students demonstrate competency in teaching beginning lessons on instruments in the specified family of instruments.

- Students analyze compositions and demonstrate ability to read notation designed specifically for individual instruments in the specified family of instruments.

General Education Outcome Supported

- Students develop higher order thinking skills.

Standard Practices

Topics List

Instruments in specified family and playing techniques peculiar to each. Sample topics will include embouchure, breathing techniques, fingering patterns, stick techniques, reeds and reed-making, among others.

Learning Activities

N/A

Assessments

Tests for this course will consist of playing checks on the instruments in the specified families that will highlight the skills listed under Topics above. As with private lesson juries, scores on playing tests will be used to assess the effectiveness of the courses.
