SOCI 2063 (Global Diversity)

Catalog Description:

Global Diversity - (On Demand). An sociological examination of the nature of inequality, the causes and consequences of prejudice and discrimination, the varying patterns of majority/minority interactions and relationships in society, and an analysis of patterns of dominant-minority group relations ranging from assimilation to genocide. Race and ethnic relations from a global view will be examined, especially globalization and its impact on indigenous populations, and indigenous resistance to globalization, and global justice movements.

Prerequisites:

None.
