

Evaluation of Non-US Studies

The following organizations will evaluate foreign transcripts for a price. If the evaluation service of choice requires a translation prior to submission, it is the student's responsibility to have transcripts (high school and college), diplomas, financial statements, and/or dependent documents translated. Please check with the service you choose prior to taking action.

If you are transferring to another institution, please note that although NWACC accepts evaluations from these evaluators, it does not guarantee acceptance by another institution. We recommend that you contact the members directly to obtain information about the services they offer, their fees, and their requirements.

****Note:** If your non-US studies transcript comes from an institution of higher learning (university/college), you will need a Course by Course Analysis to convert the credits to the Grade Point Average (GPA) format.
